

OCCUPY WALL STREET!

Peace and Freedom Party Statement, Sept 24, 2011

Peace and Freedom Party of California, the only working class, feminist-socialist party on the ballot in California, expresses our solidarity with the activists participating in the Occupation of Wall Street, now entering its second week. Our Platform has long included demands for “Social ownership and democratic control of industry, financial institutions, and natural resources,” as well as “Withdraw U. S. troops and weapons from other countries, and reallocate the resulting ‘peace dividend’ for social benefit.” Our Platform further states that: “Our goals cannot be achieved by electoral means alone. We participate in mass organization and direct action in neighborhoods, workplaces, unions and the armed forces everywhere.”

UPDATE: OCTOBER 6, 2011

As Occupy Wall Street goes national and mainstream media distort the movement, we urge our members and supporters to seek independent sources of information on this important action by googling “occupy wall street” and viewing the following, among others:
