

# VOTE NO on Prop 14

Don't be fooled by the misleading words "open primary". This is a Top Two primary that would actually limit your choices to only two candidates in November.

You will have more choices in the June primary election, but the two highest vote-getters in June will be your only choices in November.

The Top Two might be from the same party, especially in strongly Democratic or Republican districts. They would almost never include an independent or a small party candidate. And write-in votes would not be counted in November.

Top Two increases campaign spending and dependence on corporate contributions. It has favored incumbents and failed to elect more moderate candidates in the two states where it has been tried.

**Vote NO on Prop. 14**

## 14

- Favors incumbents
- Limits choices in November
- Eliminates third party and independent candidates
- Write-ins not counted in November

labor donated
